## NOTES

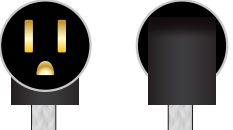

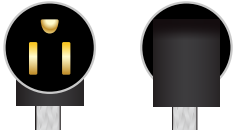

All speaker cables and analog interconnects are sold in pairs. To order a single cable, please use .5 for the quantity.

If you would like the same connectors on both ends, only one connector code is necessary. If you require one type of connector at the Amp/Source end and a different connector at the Speaker/Receiving end, list BOTH connector codes in the order of AMP/SOURCE to SPEAKER/RECEIVING.

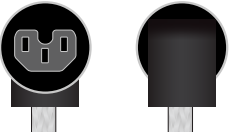

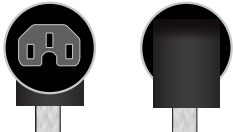

For 90 Degree connectors, specify the orientation using the charts on the next page.
